Course Description

The aim of this course is to develop students' ability to apply modern portfolio management skills, to acquire the basic knowledge and theory. Core areas covered in this course include modern portfolio management theory and practice, capital market equilibrium, fixed-income securities valuation, equity and derivatives securities analysis, performance evaluation and practical issues in the process of portfolio management.

Student Learning Objectives

After learning this course, students should be able to:

Knowledge:

- \triangleright Discuss major players in the financial markets and main types of securities traded in those markets;
- Explain the core of modern portfolio theory and the implications of that theory for the equilibrium structure of expected rates of return on risky assets;
- Conduct fixed-income securities pricing, equity securities and derivative securities valuation;
- Discuss several topics important for portfolio managers, including performance evaluation,

international diversification, active management and practical issues in the process of portfolio management.

Capability

- •evaluate risk and return
- •build optimal portfolios
- •evaluate portfolio performance
- •advise on alternative portfolios, in both a domestic and international context

Mindset

- •establish the integrity and objectivity in investing workplace
- •be logical, ethical, methodical, consistent and accurate
- •apply critical thinking in the process of decision making

Teaching Methods

This course contains lectures, class discussions, homework, quizzes, presentation and exams. Textbook content will be introduced first. Then real case and practice questions will be delivered to students as a way to test their understanding of the knowledge. This will require individual or group assignment in or after class.

Grade Criterion

Component	Weight	Description	
	20%	A cumulative final examination will be given based on all of the contents	
		of the class. The exam paper may be composed of multiple-choice	
Final Exam		questions, short answer questions, essay questions, problems. Students	
		should rely primarily on homework assignments to give them a sense of	
		what they may see for material on exams.	
		A cumulative midterm test will be given based on all of the contents that	
Mid-Term Test	20%	have been taught in class. The test paper may be mainly composed of	
		multiple-choice questions and long-constructed questions.	
	15%	Most of the assigned homework is taken from the Exercises in the	
Homework		textbook. Assignments will be collected at the clearly stated date. Late	
Homework		assignments will not be accepted. The graded assignments will be kept	
		by the tutor for reference and won't be returned to students.	
		There will be at least 2 quizzes during the semester. Quizzes may or may	
Quizzes	15%	not be announced in advance. It may also be used as a way to check the	
Quizzes		attendance. Quizzes will test your knowledge of both concepts and the	
		application of those concepts.	
	10%	The students will be divided into several groups to prepare a presentation.	
Presentation		Each student is required to be involved in the presentation. The topics	
		can be selected from the textbook or lectures or course related materials.	

		Each group needs to finish a PPT related to the topic which is given and hand in the related resources to the teacher before the presentation.	
Participation	10%	Individuals will be asked to participate individually in a question and answer at least 5 times during the semester. The performances should be counted in their participation.	
Attendance	10%	Refer to attendance policy listed below	
Total	100%		

Detailed Grade Computation

	Before Midterm	After Midterm
Attendance	5%	5%
Participation	5%	5%
Homework	5%	10%
Quizzes	5%	10%
Presentation		10%
Midterm test	20%	
Final exam		20%
Total	40%	60%

Grading Policy

A+ 97-100	A 93-96	A- 90–92	B+ 87-89	B 83-86	B- 80–82
C+ 75-79	C 70-74	C- 67–69	D+ 63-66	D 62-60	F 0- 59

Exam Schedule

Midterm Test: April 10-14, 2023 Final Exam: June 5-9, 2023

Assessment of Student Performance

☞ Self-Study and Reading ability Practice

Instructor will give out the chapters or the reference books to read and use class hours to have discussion; students should be able to show a proactive attitude and ability for self-study and reading. Knowledge and oral English will be elements of homework or presentation score.

ℱ Homework

Students should finish their homework by themselves. Copying from others will be treated as cheating and the homework scores will be lowered. Students should hand in all assignments on time. Late assignments will be accepted at the discretion of the instructor (i.e., when the student was ill or had an excused absence). Late assignments without reasonable proof will be reduced in score by 50%.

☞ Attendance

Because the course covers a great deal of material, attending every class session is very important for performing well.

- Being late for 15 minutes or more is considered an absence.
- Five hours or above of unexcused absences will result in the lower level of the final grade by one grade band (e.g. from C – to D +). Any excused absence must be discussed directly with the teacher.

- Absence which is more than 1/3 of the total teaching hours will cause an F (a failing grade) directly. But students are welcome to continue attending classes.
- An incomplete grade (I) will be considered in case of medical or family emergencies.

Participation

- Students should participate in classes actively. Half of participation grade is determined by their presentation in class. They are encouraged to ask questions relevant to the subject and express their own opinions. Every student should respect the ideas, opinions, and questions of their classmates.
- Students should also use office hours to ask questions or talk with the instructor for good communication and effective learning.
- Frequent visiting the instructor and chatting in English during office hours is highly recommended.
- Any misbehavior and non-class related activities in class will result in the lower level of the participation grade, including ringing cell phones.
- All above behaviors will be solely evaluated by the instructor for scoring.

Textbook

Students must bring the textbook to class.

Topical Course Outline

Week	Topics	Homework
	Chapter 1 The Investment Environment	
	1 Real Assets versus Financial Assets	
	2 Financial Assets	
	3 Financial Markets and the Economy	
	4 The Investment Process	
1	5 The Player	
	Mindset: Investors need to understand the nature of investment that an investment is the current commitment of money or other resources in the expectation of reaping future benefits. For an individual, he or she sacrifice something of value now, expecting to benefit from that sacrifice later.	
2	Final exam for Semester 2022 Fall	
3	Final exam for Semester 2022 Fall	
	Chapter 2 Asset Classes and Financial Instruments	
	1 The Money Market	
	2 The Bond Market	
	3 Equity Securities	
4	4 Stock and Bond Market Indexes	
4	5 Derivative Markets	
	Mindset: Only a good foundation can build a strong house. In order to build a good investment portfolio, students should decide how much money to allocate to broad classes of assets. Firstly, students should acquire different classes of assets.	

	• Chapter 3 How Securities are Traded	
	1 How Firms Issue Securities	
	2 How Securities Are Traded	
	3 New Trading Strategies	
	4 Globalization of Stock Markets	
5	5 Trading Costs	
	6 Buying on Margin	
	7 Short Sales	
	Mindset: Student should learn the mechanics of trading securities and how the financial	
	world operates.	
	Chapter 4 Mutual Funds and Other Investment Companies	
	1 Investment Companies	
	2 Mutual Funds	
6	3 Exchange-Traded Funds	
	\$	
	Mindset: Could the historical events repeat? Will the mutual funds that were the best past	
	performers be the best future performers? Those questions should be answered.	
	Chapter 5 Risk, Return, and the Historical Record	
	1 Comparing Rates of Return for Different Holding Periods	
	2 Risk and Risk Premium	
	3 Time Series Analysis of Past Rates of Return	
	4 Deviations from Normality and Risk Measures	
	5 Historic Returns and Risky Portfolio	
7	o motorio resistanti una rassity i contente	
,	Mindset: Investors face a trade-off between risk and expected return. Historical data	
	confirm our intuition that assets with low degrees of risk provide lower returns on	
	average than do those of higher risk. Appropriate decision rule protects wealth of the	
	entire society. Risk should be considered when seeking profit. Life without goals is	
	chaotic, so as to stimulate students to set up goals at all stages of life and strive for the	
	ideal goals.	
8	Revision & Quiz	
9	Mid-term Test	
	Chapter 6 Capital Allocation to Risky Assets	
	1 Risk and Risk Aversion	
	2 Capital Allocation across Risky and Risk-Free Portfolios	
	3 Portfolios of One Risky Asset and a Risk-Free Asset	
	4 Risk Tolerance and Asset Allocation	
	5 Passive Strategies: The Capital Market Line	
10		
	Mindset: Combined with the hot issues in different periods, the content related to the	
	course is selected. To encourage student to have critical thinking by allocating capital to	
	risky assets. To understand the existence of a portfolio management industry in the face	
	of personal investor preferences, we need insight into the nature of risk aversion. To be	
	aware of what is happening in the market.	
	Chapter 7 Optimal Risky Portfolios	
	1 Diversification and Portfolio Risk	
11	2 Portfolios of Two Risky Assets	
11	3 Asset Allocation with Stocks, Bonds, and Bills	
	4 The Markowitz Portfolio Optimization Model	
	-	

Mindset: Connected with practice and financial news, students are encouraged to discuss	
potential gains from simple diversification into many assets. Students are motivated to	
have insight into the power of diversification by drawing an analogy between it and the	
workings of the insurance industry.	
• Chapter 8 Index Models	
1 Single-Factor Security Market	
2 Single-Index Model	
3 Portfolio Construction and Single-Index Model	
4 Practical Aspects of portfolio Management with Index Model	
Mindset: This chapter illustrates how to use the index model by constructing an optimal	
risky portfolio using a small sample of firms. The history cannot fully represent the	
future. To be prudent to give out any recommendations and to fully incorporate new	
information, accuracy of data estimations should be improved. Everyone should be	
accountable to their behavioral.	
Chapter 9 The Capital Asset Pricing Model	
1 The Capital Asset Pricing Model	
2 Assumptions and Extensions of the CAPM	
•	
• <u>Revision & Quiz</u>

Note: In the first three weeks, Xuexitong, Tencent Meeting and WeChat group will be used as main teaching methods. WeChat group will be mainly used to inform students of daily study activities and tasks. Xuexitong and Tencent Meeting will be used as main platform to organize study activities. When school reopen *Xuexitong will be used to release learning materials.*

Some chapters or sections may leave for self-study, this is the students' duty to learn and understand, they may also be included in the quizzes or exams.

A review in Chinese may be held during L.C. and O.H. in the semester.

Teacher's Office Hour

- The instructor's office hour is shown in the front of the office door.
- Students are suggested to use the instructor's office hour and learning center to ask questions or talk with the instructor once at least per week for good communication and effective learning, which is recorded in the students' participation.
- The time can be scheduled by instructors or students, or both.

Cheating and Plagiarism

Cheating is not tolerated. Any student caught cheating on a quiz; test or exam will be given a mark of zero (0) for the particular work. At the beginning of the semester the definition of plagiarism will be carefully explained, when any thoughts or writings of another person are used, they must be clearly identified (usually one uses quotation marks) and the source notes. If any student is caught cheating on any homework assignment, the highest score the student can earn in that course is a "C".
