

Capital University of Economics and Business Overseas Chinese College Course Syllabus

Year and Semester 2020 Fall (September 19, 2020 - January 11, 2021) **Course Name** Calculus I **Course Code MAT 111 Course Type** ☑ General Education (Required) ☐ General Education (Elective) ☐ Professional Course (Required) ☐ Professional Course (Elective) ☐ Basic Disciplinary Course **Course Credits** 4 **Course Hours** 64 **Prerequisites** None **Instructor** Jianming Huang Office: C217 **Contact Information** Tel: 010-83961082 Email: huangjianming@cueb.edu.cn

Office Hour T: 16:30-17:30 W: 14:30-17:30 TH:9:00-11:00

Learning Centre T:18:00-20:00 W:10:00-12:00

Grade/Section 2020ACCA2/Y04 **Course Time/Place** W: 8:00-9:50/A105

F: 10:10-12:00/A105

Textbook

William L. Briggs, Lyle L. Cochran, Bernard Gillett. Calculus (2nd Edition). China Renmin University Press. ISBN: 978-7-300-28047-9

Reference Book

1. Colin Adams, Joel Hass, Abigail Thompson: How to Ace Calculus-The Streetwise Guide, W H Freeman & Co (1998), ISBN: 0-716-73160-6

2. Anton, Bivens & Davis. Calculus (Seventh Edition). John Wiley & Sons, Inc(2002). ISBN: 0-471-38157-8

Course Description

This course will focus on single variable calculus. It contains: function, limit and continuity, derivative and its applications, the concept and property of definite and indefinite integrals and the application of them, the differential equation and its application.

Student Learning Objectives

After completing this course, students will be able to:

- Good computational ability
- Logical ratiocinating ability
- The using known knowledge to resolve unknown problem ability
- Deeper understanding of functions

- Able to use the derivative and integral to set up and solve mathematical questions
- Able to solve the questions to differential equations

Teaching Methods

This course consists of lectures, discussions and student presentations. Students will be divided into small groups with a group leader helping others in the group. Students must be prepared to finish some small questions and small quizzes during the class.

Grade Criterion

Component	Weight	Description	
	20%	A cumulative final examination will be given based on all of the contents	
Final Exam		of the class. A minimum of 25% of the exam (5 of the 20%) will consist	
		of questions utilizing the application of critical thinking.	
	200/	A cumulative midterm examination will be given based on all of the	
Mid Town Toot		contents of the first half of the class. A minimum of 25% of the exam (5	
Mid-Term Test	20%	of the 20%) will consist of questions utilizing the application of critical	
		thinking.	
Homework	15%	Homework problems will be assigned throughout the term, including but	
Homework	1370	not limited to: terminologies, research project, and reading assignments.	
		There will be at least 2 quizzes during the semester. The purpose of the	
Ovigges	15%	quizzes is to ensure that students keep up with the readings. It may also be	
Quizzes		used as a way to check the attendance. Quizzes will test your knowledge of	
		both concepts and the application of those concepts.	
	10%	The students will be divided into several groups to prepare a presentation.	
		Each student is required to be involved in the presentation. The topics can	
Presentation		be selected from the textbook or lectures. Each group need to finish a PPT	
Presentation		related to the topic which is given and hand in the related resources to the	
		teacher before the presentation. The percentage is :	
		content50%+organization10%+language15%+performance25%	
	10%	Individuals will be asked to participate individually in questions during the	
Participation		semester. Students are required to meet with their teachers every week. Their	
		performances should be counted in their participation.	
Attendance	10%	Refer to attendance policy listed below	
Total	100%		

Detailed Grade Computation

The state of the s				
	Before Midterm	After Midterm		
Attendance	5%	5%		
Participation	5%	5%		
Homework	5%	10%		

Quizzes	5%	10%
Presentation		10%
Midterm test	20%	
Final exam		20%
Total	40%	60%

Grading Policy

A+ 97-100	A 93-96	A- 90–92	B+ 87-89	B 83-86	B- 80–82
C+ 75-79	C 70-74	C- 67–69	D+ 63-66	D 62-60	F 0- 59

Exam Schedule

Midterm Test: Nov 2-Nov 6; Final Exam: Jan 4-Jan 8, 2021

Assessment of Student Performance

₱ Self-Study and Reading ability Practice

Instructor will give out the chapters or the reference books to read and use class hours to have discussion; students should be able to show a proactive attitude and ability for self-study and reading. Knowledge and oral English will be elements of homework or presentation score.

Homework

Students should finish their homework by themselves. Copying from others will be treated as cheating and the homework scores will be lowered. Students should hand in all assignments on time. Late assignments will be accepted at the discretion of the instructor (i.e., when the student was ill or had an excused absence). Late assignments without reasonable proof will be reduced in score by 50%.

☞ Attendance

Because the course covers a great deal of material, attending every class session is very important for performing well.

- Being late for 15 minutes or more is considered an absence.
- Five hours or above of unexcused absences will result in the lower level of the final grade by one grade band (e.g. from C - to D +). Any excused absence must be discussed directly with the teacher.
- Absence which is more than 1/3 of the total teaching hours will cause an F (a failing grade) directly, but students are welcome to continue attending classes.
 - An incomplete grade (I) will be considered in case of medical or family emergencies.

Participation

- Students should participate in classes actively. Half of participation grade is determined by their presentation in class. They are encouraged to ask questions relevant to the subject and express their own opinions. Every student should respect the ideas, opinions, and questions of their classmates.
- Students should also use office hours to ask questions or talk with the instructor for good communication and effective learning.
- Frequent visiting the instructor and chatting in English during office hours is highly recommended.
- Any misbehavior and non-class related activities in class will result in the lower level of the

participation grade, including ringing cell phones.

• All above behaviors will be solely evaluated by the instructor for scoring.

Textbook

Students must bring the textbook to class.

Topical Course Outline

Week	Date	Topics	Homework
		• Chapter 1	
4		Understand the definition and properties of functions	
	Sept.28-Oct2	2. Master some essential kinds of functions	
	_	3. Master the composite function	
		4. Master the property of inverse function	
		• Chapter 1	
	Oct.5-Oct.9	Master the exponential and logarithm function	
_		2. Master the inverse trigonometric function	
5		• Chapter 2	
		Master the definition of limit	
		2. Can calculate limits by using limit laws expertly	
		• Chapter 2	
		3. Master how to calculate limits at infinity, and know	
6	Oct.12-Oct.16	how to find vertical and horizontal asymptotes	
0	Oct. 12-Oct. 16	4. Master the definition and property of continuity, can	
		determine whether a function is continuous or not	
		5. Self-study about the precise definition of limit	
		• Chapter 3	
	Oct.19-Oct.23	1. Master the definition of derivative, and can use	
		definition to find derivative	
7		2. Can find derivative as a function	
		3. Master the rules of differentiation	
		4. Master the product and quotient rules	
		● Quiz 1	
		5. Master how to calculate derivative of trigonometric	
8	Oct.26-Oct.30	functions	
0		6. Understand the derivatives as rate of change	
		7. Master how to use the chain rules	
		8. Master how to find derivative of implicit functions	
9	Nov.2-Nov.6	9. Master how to find higher derivatives	
	1NOV.2-1NOV.0	10. Can find derivative of logarithmic functions	
		Midterm Test	
		• Chapter 4	
10	Nov.9-Nov.13	1. Can find maximum and minimum values of a	
		function	
11	Nov.16-Nov.20	2. Master how derivative affect the shape of a graph	
- 11	1101.10-1101.20	3. Master how to use calculus to solve optimization	
	Nov.23-Nov.27	4. Understand the linear approximation and differentials	
12		5. Master the mean value theorem	
12		6. Know what is indeterminate form and the can use	
		L'Hospital's Rule to find limit	
13	Nov.30-Dec.4	7. Continue about how to apply the L'Hospital's Rule	
13	NOV.3U-Dec.4	8. Know the meaning of anti-derivatives and can find it	

		• Chapter 5	
		Understand the area and distance problem	
14	Dec.7-Dec.11	2. Master the definition of definite integral3. Master the fundamental theorem of calculus	
15	Dec.14-Dec.18	4. Can calculate integral by using substitutionQuiz 2	
16	Dec.21-Dec.25	Students' presentation	
17	Dec.28-Dec.31	Chinese Review Session Self-review by the students	
18	Jan.4-Jan.8	• Final Exam	

Note: Some chapters or sections may leave for self-study, this is the students' duty to learn and understand, they may also be included in the auizzes or exams.

A review in Chinese may be held during L.C. and O.H. in the semester.

Teacher's Office Hour

- The instructor's office hour is shown in the front of the office door.
- Students are suggested to use the instructor's office hour and learning center to ask questions or talk with the instructor once at least per week for good communication and effective learning, which is recorded in the students' participation.
- The time can be scheduled by instructors or students, or both.

Cheating and Plagiarism

Cheating is not tolerated. Any student caught cheating on a quiz; test or exam will be given a mark of zero (0) for the particular work. At the beginning of the semester the definition of plagiarism will be carefully explained, when any thoughts or writings of another person are used, they must be clearly identified (usually one uses quotation marks) and the source notes. If any student is caught cheating on any homework assignment, the highest score the student can earn in that course is a "C".

Important Dates

Fall Semester, 2020	September 19, 2020— January 11, 2021
Sept.19	Registration
Sept.21-Sept.25	Freshmen Education
Sept.28	Classes Begin (Freshmen)
Oct.1	National Day Holiday (tentative)
Nov.2 - Nov.6	Mid-term Test
Jan.1, 2021	New Year's Day Holiday (tentative)
Jan.4 - 8	Final Exam Period
Jan.11	Winter Vacation Begins

Note: This syllabus is tentative and may be changed or modified throughout the semester. All students will be notified and a new syllabus will be given.

Instructor: <u>Jianming Huang</u> Department Head: Prof. Jingning Li
