

Capital University of Economics and Business Overseas Chinese College Course Syllabus

Year and Semester	2018 Fall (September 3, 2018 - January 4, 2019)			
Course Name	Calculus I			
Course Code	MAT111			
Course Type	General Education (Required)	General Educa	tion (Elective)
	□ Professional Course	(Required)	□ Professional C	Course (Elective)
	Basic Disciplinary C	Course		
Course Credits	4			
Course Hours	64			
Prerequisites	None			
Instructor	Leilei Zhu (Emma Zhu)		
Contact Information	Office: C217			
	Tele: None			
	Email: zhuleilei@cueb.edu.cn			
Office Hour	M: 14:20—15:20;	T: 10:00-12:00	0, 15:40—16:40;	F: 15:30—17:30
Learning Centre	M: 10:00—12:00;	F: 10:00—12:	00	
Grade/Section	2018BA/Y01			
Course Time/Place	MTH: 8:00-9:50 / A10	01;		

Textbook

James Stewart. Calculus, Seventh Edition. Higher Education Press, ISBN: 978-7-04-039620-1

Reference Book

- 1. Colin Adams, Joel Hass, Abigail Thompson. *How to Ace Calculus-The Streetwise Guide*.W H Freeman & Co (1998), ISBN: 0-716-73160-6.
- 2. Anton, Bivens & Davis. Calculus, Seventh Edition. John Wiley & Sons, Inc(2002), ISBN: 0-471-38157-8.

Course Description

This course will focus on one variable calculus. It contains: function, limit and continuity, derivative and its applications, the concept and property of definite and indefinite integrals and the application of them, the differential equation and its application.

Student Learning Objectives

After completing this course, students will be able to:

- Obtain good computational ability, logical ratiocinating ability
- Obtain the ability to use known knowledge to resolve unknown problem
- Gain deeper understanding of functions
- Use the derivative and integral to set up and solve mathematical models from verbal descriptions
- Can solve the questions related to differential equations.

Website Source

None

Teaching Methods

This course consists of lectures, discussions and student presentations. Students will be divided into small groups with a group leader helping others in the group. Students must be prepared to finish some small questions and small quizzes during the class.

Grade Criterion

Component	Weight	Description
		A cumulative final examination will be given based on all of the contents
Final Exam		of the class. The exam paper may be composed of multiple-choice
	20%	questions, short answer questions, essay questions, problems, and
		preparation of financial statements. Students should rely primarily on
		homework assignments to give them a sense of what they may see for
		material on exams.
	20%	A cumulative midterm test will be given based on all of the contents that
Mid Tama Tast		have been taught in class. The test paper may be mainly composed of
Wild-Termi Test		multiple-choice questions and it should be completed within 15 minutes
		in class.
	15%	Most of the assigned homework is taken from the Exercises in the
II		textbook. Assignments will be collected at the clearly stated date. Late
nomework		assignments will not be accepted. The graded assignments will be kept
		by the tutor for reference and won't be returned to students.
		There will be at least 2 quizzes during the semester. Quizzes may or may
Ouizzos	150/	not be announced in advance. It may also be used as a way to check the
Quizzes	15%	attendance. Quizzes will test your knowledge of both concepts and the
		application of those concepts.
	10%	The students will be divided into several groups to prepare a presentation.
		Each student is required to be involved in the presentation. The topics
Presentation		can be selected from the textbook or lectures. Each group need to finish a
		PPT related to the topic which is given and hand in the related resources
		to the teacher before the presentation.
Participation	10%	Individuals will be asked to participate individually in a question and
		answer at least 5 times during the semester. The performances should be
		counted in their participation.
Attendance	10%	Refer to attendance policy listed below

Total 100%

Detailed Grade Computation

	Before Midterm	After Midterm
Attendance	5%	5%
Participation	5%	5%
Homework	5%	10%
Quizzes	5%	10%
Presentation		10%
Midterm test	20%	
Final exam		20%
Total	40%	60%

Grading Policy

A+ 97-100	A 93-96	A- 90–92	B+ 87-89	B 83-86	B- 80–82
C+ 75-79	C 70-74	C- 67–69	D+ 63–66	D 62-60	F 0- 59

Exam Schedule

Midterm Test: November 5-9, 2018; Final Exam: January 7-11, 2019

Assessment of Student Performance

☞ Self-Study and Reading ability Practice

Instructor will give out the chapters or the reference books to read and use class hours to have discussion; students should be able to show a proactive attitude and ability for self-study and reading. Knowledge and oral English will be elements of homework or presentation score.

Homework

Students should finish their homework by themselves. Copying from others will be treated as cheating and the homework scores will be lowered. Students should hand in all assignments on time. Late assignments will be accepted at the discretion of the instructor (i.e., when the student was ill or had an excused absence). Late assignments without reasonable proof will be reduced in score by 50%.

Attendance

Because the course covers a great deal of material, attending every class session is very important for performing well.

- Being late for 15 minutes or more is considered an absence.
- Five hours or above of unexcused absences will result in the lower level of the final grade by one grade band (e.g. from C to D +). Any excused absence must be discussed directly with the teacher.

• Absence which is more than 1/3 of the total teaching hours will cause an F (a failing grade) directly.

but students are welcome to continue attending classes.

• An incomplete grade (I) will be considered in case of medical or family emergencies.

Participation

- Students should participate in classes actively. Half of participation grade is determined by their presentation in class. They are encouraged to ask questions relevant to the subject and express their own opinions. Every student should respect the ideas, opinions, and questions of their classmates.
- Students should also use office hours to ask questions or talk with the instructor for good communication and effective learning.
- Frequent visiting the instructor and chatting in English during office hours is highly recommended.
- Any misbehavior and non-class related activities in class will result in the lower level of the participation grade, including ringing cell phones.
- All above behaviors will be solely evaluated by the instructor for scoring.

Textbook

Students must bring the textbook to class.

Date	Week Index	Topics
0903-0921	Week 1-3	New students registration
0924-0928		Ch1 Functions and Models
	Week 4	1. Better understanding of definition and properties of functions
		2. Master some essential kinds of functions
		3. Can get new functions from old functions
		4. Know properties of exponential functions
1001-1005	Week 5	National Holiday
1008-1012		Ch2 Limits and Derivatives
	Week 6	1. Understand the tangent and velocity problem
		2. Master the definition of limit
		3. Can calculate limits by using limit laws expertly
		4. Understand the precise definition of a limit
		5. Master the definition and property of continuity, can determine
1015-1019	Week 7	whether a function is continuous or not, can apply intermediate value
		theorem to some questions;
		6. Know how to calculate limits at infinity, and know how to find
		vertical and horizontal asymptotes
		7. Master the definition of derivative, and can use definition to find
		derivative
		8. Can find derivative as a function

Topical Course Outline

	1022-1026 Week 8	Ch3 Differentiation Rules
1022-1026		1. Know how to find derivative of polynomials and exponential
		functions
		2. Master the product and quotient rules
		Exercise
		Review for Midterm exam &quiz
1029-1102	Week 9	Midterm Examination
		3. Know how to calculate derivative of trigonometric functions
1105-1109	week 10	4. Can use chain rule to find derivative of composite functions
		5. Know how to find derivative of implicit functions
1112-1116	Week 11	6. Know how to find higher derivatives
		7. Can find derivative of logarithmic functions
		Analysis for Midterm Exam
	Week 12	Master the definition of differentials
1119-1123		Ch 4 Applications of differentiation
		1. Can find maximum and minimum values of a function
		2. Master the mean value theorem and its application
1126-1130 Week	Week 13	3. Know how derivative affect the shape of a graph
		4. Know what is indeterminate form and the can use L'Hospital's
		Rule to find limit
	Week 14	5. Know how to use calculus to solve optimization problems
1203-1207		6. Know the meaning of antiderivatives and can find it
		Ch5 Integrals
1210-1214	Week 15	1 Understand the area and distance problem
1210-1214		2 Master the definition of definite integral
		3 Master the fundamental theorem of calculus
1217-1221	Week 16	4 Master the definition of indefinite integral and the net change
		theorem.
		5.Can calculate integral by using substitution
1224-1228	Week 17	Ouiz II
		Review & Presentation
1231-0104	Week 18	Final Exam
0107-0111	Week 19	Final Exam

Note: Some chapters or sections may leave for self-study, this is the students' duty to learn and understand, they may also be included in the quizzes or exams.

A review in Chinese may be held during L.C. and O.H. in the semester.

Teacher's Office Hour

- The instructor's office hour is shown in the front of the office door.
- Students are suggested to use the instructor's office hour and learning center to ask questions or talk with the instructor once at least per week for good communication and effective learning, which is recorded in the students' participation.

• The time can be scheduled by instructors or students, or both.

Cheating and Plagiarism

Cheating is not tolerated. Any student caught cheating on a quiz; test or exam will be given a mark of zero (0) for the particular work. At the beginning of the semester the definition of plagiarism will be carefully explained, when any thoughts or writings of another person are used, they must be clearly identified (usually one uses quotation marks) and the source notes. **If any student is caught cheating on any homework assignment, the highest score the student can earn in that course is a "C".**

Important Dates

Fall Semester, 2018	August 31, 2018— January 13, 2019
Aug. 31	Registration
Sep.3	Classes Begin
Sep.7 - 20	Freshmen's Military Training
Sep.24	Classes Begin (Freshmen)
Sep.24	Mid-Autumn Festival (tentative)
Oct.1 - 5	National Day Holiday (tentative)
Oct. 29 - Nov. 2	Mid-term Test
Jan. 1, 2019	New Year's Day Holiday (tentative)
Jan.2-11	Final Exam Period
Jan. 14	Winter Vacation Begins

Note: This syllabus is tentative and may be changed or modified throughout the semester. All students will be notified and a new syllabus will be given.

Instructor: <u>Emma Zhu</u>

Department Head: <u>Jingning Li</u>
