Human Resource Management: An Asian Perspective 2<sup>rd</sup> Edition China Machine Press

#### **Course Description**

The course is designed to provide graduate level business majors with exposure to advanced theory and research in human resource application of this knowledge to the practice of management.

#### **Student Learning Objectives**

To provide the students with knowledge of effective use of human resources through understanding human motivation and behavior patterns, we have to present the basic HRM functions of getting, training, motivating, and keeping people, while also discussing the new world of HRM. Each chapter of this book was organized to provide clarity and continuity. Each begins with learning objectives, which identify specifically what the reader should gain after reading the chapter. At the end of each chapter is a summary section, which relates chapter material specifically to the learning objectives. There is Key Terms section at the end of each chapter, These terms are defined in the margins and also in the glossary of the book.

#### ***Self-Study and Reading ability Practice***

#### ***Homework***

Students should finish their homework by themselves. Copying from others will be treated as cheating and the homework scores will be lowered. Students should hand in all assignments on time. Late assignments will be accepted at the discretion of the instructor (i.e., when the student was ill or had an excused absence). Late assignments without reasonable proof will be reduced in score by 50%.

#### ***Attendance***

Because the course covers a great deal of material, attending every class session is very important for performing well.

- ◆ Being late for 15 minutes or more is considered an absence.
- ◆ Five hours or above of unexcused absences will result in the lower level of the final grade by one grade band (e.g. from C – to D +). Any excused absence must be discussed directly with the teacher.
- ◆ Absence which is more than 1/3 of the total teaching hours will cause an F (a failing grade) directly.  
 but students are welcome to continue attending classes.
- ◆ An incomplete grade (I) will be considered in case of medical or family emergencies.

#### ***Participation***

- ◆ Students should participate in classes actively. Half of participation grade is determined by their presentation in class. They are encouraged to ask questions relevant to the subject and express their own opinions. Every student should respect the ideas, opinions, and questions of their classmates.
- ◆ Students should also use office hours to ask questions or talk with the instructor for good communication and effective learning.
- ◆ Frequent visiting the instructor and chatting in English during office hours is highly recommended.
- ◆ Any misbehavior and non-class related activities in class will result in the lower level of the participation grade, including ringing cell phones.

♦All above behaviors will be solely evaluated by the instructor for scoring.

### *Textbook*
