

# **Capital University of Economics and Business Overseas Chinese College Course Syllabus**

2019 Fall (September 2, 2019 - January 10, 2020) **Year and Semester** 

**Course Name** Introduction to Computer Technology

**Course Code MIS111** 

**Course Type** ☑ General Education (Required) ☐ General Education (Elective)

> ☐ Professional Course (Required) ☐ Professional Course (Elective)

☐ Basic Disciplinary Course

3 **Course Credits Course Hours** 48 **Prerequisites** None

Jiangxue Tian (Jessie Tian) **Instructor** 

Office: C217 **Contact Information** 

Tele: (010)83951082

Email: tianjiangxue@cueb.edu.cn

M: 10:00-12:00; W: 14:30-17:30; F: 11:00-12:00 **Office Hour** 

T: 13:30-15:30; 18:00-20:00 **Learning Centre** 

**Grade/Section** 2019BA2

**Course Time/Place** T/TH: 15:40-17:30/16:40-17:30 (A102)

**Textbook** 

Timothy J., Linda I., Daniel A. O'Leary. Computing Essentials 2017. McGraw-Hill Education Press, New York, ISBN: 978-1-259-56365-2.

#### **Course Description**

This course is an introductory course in computational knowledge. It mainly introduces the 6 components of information system: People, Procedures, Software, Hardware, Data and Internet. Learning this course allows student to have a basic and complete knowledge of computers and information systems, and to fully integrate knowledge with real life. This course lays a solid foundation for students to further studying in IT area.

#### **Student Learning Objectives**

After completing this course, students will be able to:

- Understand the structure of information system (IT), including the role of 6 components and 12 related career.
- Understand the basic architecture and application of network, and be able to communicate effectively by using network.
- Understand the functions of 2 major types of software, application software and system software, and be able to use some of them for special area.
- Understand the main types of hardware in information system, and be able to identify and configure them. Such as Input and Output device, System Unit and Storage devices.
- Understanding people's privacy, security and ethics in society is to ensure the security of information system by regulations.

- Understand the storage structure of data and the type of database, and be able to use some popular database.
- Understanding 6 steps of system analysis and design, 6 steps of project development, and basic concept of information system will lay a solid foundation for future learning and social practice.
  - Demonstrate the ability to communicate effectively, orally and in writing, individually and in teams.

#### **Teaching Methods**

This course contains online lectures, group discussions, homework, quizzes, presentation and final exam. Textbook content will be introduced first. Then real case and practice questions will be delivered to students as a way to test their understanding of the knowledge. This will require individual or group assignment in or after class.

# **Grade Criterion**

Component	Weight	Description
		A cumulative final examination will be given based on all of the contents
		of the class. The exam paper may be composed of multiple-choice
Final Exam	20%	questions, short answer questions, essay questions. Students should rely
		primarily on homework assignments and class exercise as reference for
		exams.
		A cumulative midterm test will be given based on all of the contents that
NC1 - To	100/	have been taught in class. The test paper may be mainly composed of
Mid-term Test	10%	multiple-choice questions and short answer questions. It should be
		completed within 30 minutes in class.
	20%	Most of the assigned homework is taken from the Exercises in the
		textbook. Assignments will be collected at the clearly stated date. Late
1.00		assignments will not be accepted. In general, each assignment should be
Homework & Quiz		prepared in Office software as appropriate. Hand-written assignments
		will not be accepted. The graded assignments will be kept by instructor
		for reference and won't be returned to students.
		The students will be individual prepare a presentation. The topics can be
Presentation	10%	selected from the textbook or lectures. Each student need to finish a PPT
Freschation	10%	related to the topic which is given and hand in the related resources to the
		teacher before the presentation.
		Individuals will be asked to participate individually in a question and
Participation	20%	answer at least 5 times during the semester. The performances should be
		counted in their participation.
Attendance	20%	Refer to attendance policy listed below
Total	100%	

# **Detailed Grade Computation**

	Before Midterm	After Midterm
Attendance	10%	10%
Participation	10%	10%
Homework & Quiz	10%	10%

Presentation		10%
Mid-term Test	10%	
Final exam		20%
Total	40%	60%

#### **Grading Policy**

A+ 97-100	A 93-96	A- 90–92	B+ 87-89	B 83-86	B- 80–82
C+ 75-79	C 70-74	C- 67–69	D+ 63-66	D 62-60	F 0- 59

#### **Exam Schedule**

Midterm Test: November 5-9, 2018; Final Exam: January 7-11, 2019

#### **Assessment of Student Performance**

#### Self-Study and Reading ability Practice

Instructor will give out the chapters or the reference books to read and use class hours to have discussion; students should be able to show a proactive attitude and ability for self-study and reading. Knowledge and oral English will be elements of homework or presentation score.

#### **ℱ** Homework

Students should finish their homework by themselves. Copying from others will be treated as cheating and the homework scores will be lowered. Students should hand in all assignments on time. Late assignments will be accepted at the discretion of the instructor (i.e., when the student was ill or had an excused absence). Late assignments without reasonable proof will be reduced in score by 50%.

#### **ℱ** Attendance

Because the course covers a great deal of material, attending every class session is very important for performing well.

- Being late for 15 minutes or more is considered an absence.
- Five hours or above of unexcused absences will result in the lower level of the final grade by one grade band (e.g. from C – to D +). Any excused absence must be discussed directly with the teacher.
- Absence which is more than 1/3 of the total teaching hours will cause an F (a failing grade) directly. but students are welcome to continue attending classes.
- An incomplete grade (I) will be considered in case of medical or family emergencies.

#### Participation

- Students should participate in classes actively. Half of participation grade is determined by their presentation in class. They are encouraged to ask questions relevant to the subject and express their own opinions. Every student should respect the ideas, opinions, and questions of their classmates.
- · Students should also use office hours to ask questions or talk with the instructor for good communication and effective learning.
- Frequent visiting the instructor and chatting in English during office hours is highly recommended.
- Any misbehavior and non-class related activities in class will result in the lower level of the participation grade, including ringing cell phones.
- All above behaviors will be solely evaluated by the instructor for scoring.

# Textbook

Students must bring the textbook to class.

Note: All chapters and sections may leave for self-study, this is the students' duty to learn and understand, they may also be included in the quizzes or exams.

A review in Chinese may be held during L.C. and O.H. in the semester.

#### **Teacher's Office Hour**

- The instructor's office hour is shown in the front of the office door.
- Students are suggested to use the instructor's office hour and learning center to ask questions or talk with the instructor once at least per week for good communication and effective learning, which is recorded in the students' participation.
- The time can be scheduled by instructors or students, or both.

### **Cheating and Plagiarism**

Cheating is not tolerated. Any student caught cheating on a quiz; test or exam will be given a mark of zero (0) for the particular work. At the beginning of the semester the definition of plagiarism will be carefully explained, when any thoughts or writings of another person are used, they must be clearly identified (usually one uses quotation marks) and the source notes. If any student is caught cheating on any homework assignment, the highest score the student can earn in that course is a "C".
