## **Reference Book**

DATABASE SYSTEM CONCEPTS

## **Course Description**

This course is for students to obtain principles of database systems. We will focus mainly on relational data models and relational query operations, together with SQL for data definitions and queries. The course will also involve a multi-part project using Sql Server. Students undertake a semester project that includes the query design using Sql Server.

apply the major objectives of database technology;

## **Student Learning Outcomes**

On successful completion of this course, candidates should be able to:

•

Knowledge

|            | <ul> <li>apply the relational model for databases and competing models;</li> <li>apply the techniques and tools to design and implement a database suitable for an</li> <li>information system;</li> <li>apply a database retrieval and manipulation language</li> </ul> |
|------------|--|
| Capability | <ul> <li>apply time management to self-study before or during lecture time</li> <li>analyze and solve database problems</li> </ul>   |
|            |  |
|            | apply scientific thinking skills on database   |
| Mindset    | • establish the integrity and objectivity in database  |
|            | • be logical, ethical, methodical, consistent and accurate   |
|            | • apply critical thinking in the process of decision making  |

## **Teaching Methods**

This course contains lectures, class discussions, homework, quizzes, presentation and exams. Textbook content will be introduced first. Then real case and practice questions will be delivered to students as a way to test their understanding of the knowledge. This will require individual or group assignment in class.

| Component     | Weight | Description   |
|---------------|--------|---|
|               | 20%    | A cumulative final examination will be given based on all of the contents   |
|               |        | of the class. The exam paper may be composed of computer operation          |
| Final Exam    |        | questions and case analysis questions. Students should rely primarily on    |
|               |        | homework assignments to give them a sense of what they may see for          |
|               |        | material on exams.  |
|               |        | A cumulative midterm test will be given based on all of the contents that   |
| Mid-Term Test | 20%    | have been taught in class. The test paper may be mainly composed of         |
|               |        | multiple-choice questions and it should be completed in class.              |
|               | 10%    | Most of the assigned homework is taken from the Exercises in the            |
| Homework      |        | textbook. Assignments will be collected at the clearly stated date. Late    |
| nomework      |        | assignments will not be accepted. The graded assignments may be kept        |
|               |        | by the tutor for reference and won't be returned to students.               |
|               | 10%    | There will be at least 2 quizzes during the semester. Quizzes may or may    |
| Quizzes       |        | not be announced in advance. It may also be used as a way to check the      |
| Quizzes       |        | attendance. Quizzes will test your knowledge of both concepts and the       |
|               |        | application of those concepts.  |
|               | 20%    | The students will be divided into several groups to prepare a presentation. |
|               |        | Each student is required to be involved in the presentation. The topics     |
| Presentation  |        | can be selected from the textbook or lectures. Each group need to finish    |
|               |        | a PPT related to the topic which is given and hand in the related resources |

## **Grade Criterion**

|               |      | to the teacher before the presentation.  |
|---------------|------|--|
| Participation | 10%  | Individuals will be asked to participate individually in a question and<br>answer at least 5 times during the semester. The performances should be |
|               |      | counted in their participation.  |
| Attendance    | 10%  | Refer to attendance policy listed below  |
| Total         | 100% |  |

#### **Detailed Grade Computation**

|               | Before Midterm | After Midterm |
|---------------|----------------|---------------|
| Attendance    | 5%             | 5%            |
| Participation | 5%             | 5%            |
| Homework      | 5%             | 5%            |
| Quizzes       | 5%             | 5%            |
| Presentation  |                | 20%           |
| Midterm test  | 20%            |               |
| Final exam    |                | 20%           |
| Total         | 40%            | 60%           |

## Assessment of Student Performance

#### ☞ Self-Study and Reading ability Practice

Instructor will give out the chapters or the reference books to read and use class hours to have discussion; students should be able to show a proactive attitude and ability for self-study and reading. Knowledge and oral English will be elements of homework or presentation score.

#### Homework

Students should finish their homework by themselves. Copying from others will be treated as cheating and the homework scores will be lowered. Students should hand in all assignments on time. Late assignments will be accepted at the discretion of the instructor (i.e., when the student was ill or had an excused absence). Late assignments without reasonable proof will be reduced in score by 50%.

#### Attendance

Because the course covers a great deal of material, attending every class session is very important for performing well.

- Being late for 15 minutes or more is considered an absence.
- Five hours or above of unexcused absences will result in the lower level of the final grade by one grade band (e.g. from C to D +). Any excused absence must be discussed directly with the teacher.
- Absence which is more than 1/3 of the total teaching hours will cause an F (a failing grade) directly. but students are welcome to continue attending classes.
- An incomplete grade (I) will be considered in case of medical or family emergencies.

#### Participation

- Students should participate in classes actively. Half of participation grade is determined by their presentation in class. They are encouraged to ask questions relevant to the subject and express their own opinions. Every student should respect the ideas, opinions, and questions of their classmates.
- Students should also use office hours to ask questions or talk with the instructor for good

communication and effective learning.

- Frequent visiting the instructor and chatting in English during office hours is highly recommended.
- Any misbehavior and non-class related activities in class will result in the lower level of the participation grade, including ringing cell phones.
- All above behaviors will be solely evaluated by the instructor for scoring.

#### 👁 Textbook

Students must bring the textbook to class.

#### **Topic Course Outline (original)**

| Week | Content  | Homework  |
|------|--|---|
| 1    | Course Introduction and Syllabus<br>• Review of database<br>• E-R diagram<br>• Introduction of SQL Server<br>• Installation and configuration of<br>Microsoft<br>SQL Server 2022   | • Installation and configuration of<br>Microsoft SQL Server 2022  |

|    | sp_unbindrule  |  |
| 7  | Midterm Test   |  |
| 8  | Data Architecture<br>Chapter 6: Create and manage view<br>• Create view as select<br>• alter, drop view  | USE diannaoxs<br>IF exists(SELECT name FROM<br>sysobjects<br>WHERE name='shagnpin_pro1' AND<br>type='p') DROP procedure shangpin_pro1<br>GO<br>CREATE procedure shangpin_pro1<br>@shangpinming nvarchar(8)<br>EXECUTE shangpin_pro1 'computer' |
| 9  | <ul> <li>Chapter 7: Stored Procedure</li> <li>Create procedure</li> <li>Execute</li> <li>Alter procedure</li> <li>Drop procedure</li> <li>Chapter 8: Trigger</li> <li>Create, alter, drop trigger</li> <li>Disable trigger</li> <li>Enable trigger</li> <li>sp_help trigger</li> </ul>   | Create trigger for yuangongbiao,<br>therefore automatically modify the<br>name of employee in the table of<br>xiaoshoubiao2024 and jinhuobiao2024<br>Create trigger for xiaohoubiao2024,<br>therefore check and modify the<br>xiaoshou data    |
| 10 | Data Modeling and Design   |  |
| 11 | <ul> <li>Chapter 9: Security mechanism</li> <li>Identification and Authentication:<br/>Windows/SQL Server</li> <li>create/alter/drop login</li> <li>create/alter/drop user</li> <li>create role, sp_addrole</li> <li>sp_grantdbaccess, sp_revokedbaccess,<br/>sp_helpuser</li> <li>grant, revoke, deny</li> <li>sp_addsrvrolemember,<br/>sp_dropsrvrrolemember</li> <li>sp_addrole, sp_helprole</li> </ul> | Exec sp_addlogin<br>'user1','user1','diannaoxs','us_english'<br>exec sp_grantdbaccess<br>'RUCHANGJUN\user', 'XJ'<br>exec sp_grantdbaccess 'user1', 'AA'<br>deny create database, create table to<br>user1                                      |
| 12 | <ul> <li>Data Warehousing and BI</li> <li>Chapter 10: Management of massive data</li> <li>Datawarehouse</li> <li>Datamining</li> </ul>   |  |
| 13 | <ul> <li>Metadata Management</li> <li>Big Data and Data Science</li> </ul>   |  |
| 14 | • Presentation   |  |
| 1  |  |  |

| 16 | • Mock Exam |  |
|----|-------------|--|
| 16 | • Q&A Time  |  |

**Note:** Some chapters or sections may leave for self-study, this is the students' duty to learn and understand, they may also be included in the quizzes or exams. A review in Chinese may be held during L.C. and O.H. in the semester.

## **Teacher's Office Hour**

- The instructor's office hour is shown in the front of the office door.
- Students are suggested to use the instructor's office hour and learning center to ask questions or talk with the instructor once at least per week for good communication and effective learning, which is recorded in the students' participation.
- The time can be scheduled by instructors or students, or both.

#### **Cheating and Plagiarism**

Cheating is not tolerated. Any student caught cheating on a quiz; test or exam will be given a mark of zero (0) for the particular work. At the beginning of the semester the definition of plagiarism will be carefully explained, when any thoughts or writings of another person are used, they must be clearly identified (usually one uses quotation marks) and the source notes. If any student is caught cheating on any homework assignment, the highest score the student can earn in that course is a "C".

#### **Important Dates**

| Midterm Test | Week 7  |
|--------------|---|
| Final Exam   | Week 17,18: June- 23 <sup>rd</sup> , June-4th, July (Refer to the |
|              | notice of the Academic Affairs Office)                            |

*Note:* This syllabus is tentative and may be changed or modified throughout the semester. All students will be notified and a new syllabus will be given.
